Technology (the assignee), and e-mail attached which was sent on May 23, 2002, shows our attempt to find forwarding information for the missing inventors Marcus Weber and Max Welling. Dr. Perona's secretary indicated that she would ask around. Eventually, she found a forwarding address, on May 23, 2002, and Marcus Weber indicated that he would sign the documents on May 27, 2002. We sent him these documents, but they never got returned. It was sent again on June 28, 2002, at which time, the e-mail got returned, see attached copy of e-mail. Formals were also sent to Max Welling, who also has not returned the papers. It is not entirely sure whether he received them or not.

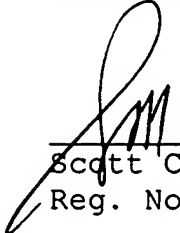

In any case, as can be seen from the attachments, diligent efforts have been undertaken to obtain the signatures of the missing inventors. Kindly except the filing without these inventors signatures. The petition fee of \$130.00 is attached.

Becky:

The students are notoriously bad at giving out forwarding info when leave leave. Can't figure it out but that's the way it is.
Found Max through a Google search...<<http://www.cs.toronto.edu/~welling/>>
but no luck with Markus Weber. I'll ask around the lab and if I find out anything I'll let you know.

Dear Ms. Ippolito,

I'd be glad to sign the documents. I understand that in doing this I would also declare that I have reviewed and understand "the specification" (I guess that this is the actual content of the patent filing). However, I have not received those documents and was not even aware of the filing process. Could you please send me a copy of the relevant material?

Best regards,
